The purpose of this special meeting was to update the council regarding the stabilization ponds. The three concrete structures are needing attention to continue working properly for the city's sanitary sewer system. Brandon with Helms & Associates Engineering Firm had met prior with Jesse and Larry to discuss the failing structures and gave options for replacement or repair. After a lengthy discussion and questions the council agreed to proceed with this project. Motion by Nelson, second by Grabow to sign the letter of agreement for the final design development and preparation of construction contract documents with Helms and Associates. All voting aye; motion carried. With this being a time sensitive project, the Engineer will begin work immediately to get the design done and approval from the council.

The next regular city council meeting will be Monday March 4th, 2024 at 6:30 pm at the Gary City Hall.

Motion by Grabow, second by Engesser to adjourn. All voting aye; motion carried.
