

**October 15, 2009**

Gate City Development Association Board met on October 15, 2009 at the fire hall. Present were: Marion Denekamp, Mary Nosbush, Angel Oeltjenbruns and Will Stone. Absent: Lynda Rol.

Meeting was called to order by Chairman Stone. Angel reported that there are many hours of work involved in making the reports for the revolving loan fund grant. She said the phone calls to get things set up must all be made during business hours.

Angel reported that she is getting some new paperwork for the loan application process from First District Planning Association. She said it will work well for our purposes.

Linda Gauger has completed the handicapped accessibility assessment on the fire hall meeting area. We will owe her \$40 for her services. Some minor changes are needed, including: mirrors in bathrooms need to be installed lower; a blue handicapped parking sign needs to be installed in the parking area and the asphalt needs to be painted to mark the parking space. Mary and Marion will work with the Fire Department and the City to get these items taken care of as soon as possible.

Plans were discussed to pay Angel for her administrative work on the USDA Rural Development grant funds. She said that future grant applications need to include a budget for administrative work. No action taken.

Meeting adjourned at 9 p.m.

  
Mary Nosbush, Secretary
